## A. GUIDELINES FOR INTERPRETING THE REPORT

The teacher evaluation report is for developmental purposes and is meant to help identify strengths and areas for improvement. Please consider the following recommendations that will aid in interpreting the results:

1. Examine the report by taking note of patterns in order to consider how best to act on the feedback your students have taken the time to provide. Use the reflection section at the end to reflect upon how you might act on the feedback.
2. These evaluations stem from student perception and thus constitute one source of evidence among others as to the quality of your teaching. Any response to the feedback should be based on the most representative results rather than on outlying responses.
3. Upon getting a general sense as to what has gone well, and which areas may require attention and improvement, it is important to drill down to the related questions. These questions can help guide future action if feedback from students suggest areas for improvement.
4. Keep both the likert scale and written comments in mind while reading through the report. High scores (4+) suggest student consensus indicating a strength. On the other hand, low scores (2-) should be considered as an area that requires immediate developmental focus based on student feedback.

B. NOMINATION FOR TEACHING AWARDS

Response Count	
I would like to nominate TEO MENG SHIN, RYAN for teaching awards	5

Comment
- He is legit a CS god y'all missing out if you don't give him this award. MAN DESERVES IT love u Ryan
- Good at what he does, delivers the lesson very effectively such that we can understand
- Friendly and responsive
- Incredibly well versed in his knowledge with a think for yourself attitude.
- He's a passionate individual who's willing to do more for students. He's patient in teaching and always tries to use simple terms to explain to students if we're unsure. I would like to nominate Ryan as I believe he deserves recognition for the efforts he put into teaching.

## **F. SELF-REFLECTION**

1. When comparing these results to the previous year's results, what areas have shown improvement?
2. What areas remain to be improved and what are the necessary steps / actions to do so?
3. Are there colleagues who could potentially guide me?
4. Are there issues that require departmental or institutional support?
